## Behind the Scenes

During the off-season, our team concentrates on implementing the feedback from our annual survey. Pete and his team have been hard at work around the camp, tackling tasks such as tree pruning, planting native species, enhancing drainage, and enriching the soil to encourage new grass growth as spring approaches. They have also been busy maintaining our various blocks and upgrading some of the apartments and cabins.

As we move into Spring, our preparations for summer will ramp up. We have several projects in the pipeline, including the installation of a new entrance barrier for the campground, designed to improve both customer experience and security.

## The Trails are Perfect

The Kaiteriteri Mountain Bike Park offers great riding for those wanting adrenaline-fueled descents or those that just enjoying riding in a stunning and unique setting, finished off with a pie at the Kaiteriteri store.

Unlike other MTB parks, the granite based trails enable perfect riding throughout the year, even in winter.
